March 3, 2020

Dear Stillwater Families,

Student and staff safety continue to be a top priority for Stillwater Township School. The Coronavirus (COVID19) has been recently introduced to the United States from overseas. Please be assured that the Stillwater Township School is taking this virus seriously. We have reviewed our protocols and procedures for reporting, sanitation, and overall preventative measures. These have been in place for all severe respiratory illnesses including influenza. If you have any questions or concerns, please do not hesitate to call our school nurse, Mrs. Beckman. If there is an immediate concern please contact your family doctor.

Education is the best means for prevention. With that stated, please take the time to review the documents listed below.

- [Fact Sheet for 2019 Coronavirus Disease \(What you need to know about COVID 19\)](#)
- [Fact Sheet for 2019 Coronavirus Disease \(What to do if you are sick\)](#)
- [Stopping the Spread of Germs](#)

For more information please visit the Center for Disease Control and Prevention website at www.CDC.gov.

At Stillwater Township School, we educate our students to practice good hygiene, and we thank you for reinforcing these practices at home as well. The best way to be proactive and preventative is to work together as a community. Thank you for your support and stay healthy!

Sincerely,

William Kochis
Superintendent
